Sub: Floral Inventorization and other related works in Susunia and Jhalda MPCAs in South Bengal

Dear Sir,

With reference to the subject mentioned above and the meeting held at your chamber on 21<sup>st</sup> June, 2018, we wish to carry out the floral inventorization and other related works for Susunia MPCA in Bankura district and Jhalda MPCA in Purulia district with assistance from your department. The PIA of the project is Research Circle, Directorate of Forests, Government of West Bengal. The total approved budget for the assignment is Rs. 10.10 lakhs.

While conducting the floral inventorization in 2 MPCAs, the following works need to be carried out as per associated terms and conditions:

- a) The floristic inventorization will be carried out in 200 ha. for each MPCA. The total area will be divided in 50 numbers of grid (unit size 200 x 200 meter) from which 5 grids will be randomly selected for the survey/floral inventorization. In each working grid 5 quadrates/sample plots will be laid out within a unit size of 20m x 20m for enumeration of trees. Inside each 20m x 20m quadrate 4 (four) plots of 5m x 5m and 5 (five) plots of 1m x 1m will be laid out for enumeration of shrubs and herbs/climbers respectively.  
The inventorization need to be carried out in 3 (three) seasons i.e. Pre-monsoon (April), Post-monsoon (August) and Winter (December) for each MPCA during the project period by making a total of 3 visits in each MPCA. However, if situation demands or any other requirement arrives then another visit may be carried out to fill the data gap.
- b) The estimation of growing stock will be done by measuring the girth and height of individual trees in each 20m x 20m quadrates/sample plots for one time only during the project period.
- c) Biodiversity assessment: The detailed survey data in respect of trees, herbs, shrubs and climbers will be analyzed by as per existing biodiversity assessment formula. The following results/outputs needs to be emphasized:
  - i. Population density
  - ii. Sp. density & frequency
  - iii. Variation of species
  - iv. Species dominance
  - v. Status of new recruits
  - vi. Complete list of climbers & lianas
  - vii. Complete list of orchids and epiphytes

- d) List of Rare, Endangered & Threatened species and complete list of medicinal plants found in the MPCA areas.
- e) In all cases grid wise raw data need to be submitted along with analysis and result separately.
- f) Preparation of herbarium including its digitization of all medicinally important herbs and shrubs and needs to be handed over to us. However, only 1 set of herbarium needs to be prepared for each species for each MPCA.
- g) Submission of progress and final report along with geo tagging of field photographs of various event/activities in respect of all MPCAs. No publication can be made out of the study without taking written consent from us.
- h) For conducting floral inventorization work and other related activities a remuneration of Rs. 6,000/- will be paid per 20m x 20m sample plot enumeration in each season of the 2 MPCAs (6000x25x3x2). Thus a total amount of Rs. 9,00,000/- will be paid for the work.
- i) An additional amount of Rs. 1,10,000/- will be paid for survey & demarcation with GPS of the MPCA area and laying out of grids & sample plots within the MPCA area.
- j) The amount mentioned above will be subjected to fund availability and time to time sanction by the Directorate Forest, Govt. of West Bengal.
- k) All the expenditures (related bills, vouchers and other related documents) should be submitted to the undersigned and are subjected to Audit by Govt. Auditor or CAG empanelled chartered accountant.
- l) Expenditure for transportation, food and lodging will be borne from your end. However we will facilitate to arrange vehicle, food, lodging and other logistic support.

Always feel free to discuss on any issue regarding subject matter for smooth implementation of project work.

Your kind confirmation and acceptance is requested.

Thanking you,

Dear Sujay,

First, thank you for your patience and for your kind email! Hopefully, you received the information for your honorarium from our payment team (Madeline Hoverkamp), and I'm delighted to report that today I received word back from our editor-in-chief re: your proposed bibliography on corruption. Though she was intrigued by the idea, she stated that it might be better placed elsewhere since it does not explicitly address Hinduism. If the piece were of a historic, rather than polemical nature, it would be perfect for the project. However, I'm happy to ask fellow colleagues on the projects (perhaps politics) if such a piece would prove interesting!

Let me know what you think, and please accept my warm thanks again for your help!

Dear Sujay,

I'm delighted to meet you! My name's Christopher Hill, and I'm the Development Editor for Oxford Bibliographies' Political Science subject module.

My colleague Kathleen Hines told me that you recently submitted a proposal for a bibliography on corruption in Hindu politics. Although that topic might be slightly out of scope for our Hinduism module, I'd be more than happy to ask the editor-in-chief for Political Science to consider it.

I want to let you know that I'll be reaching out to our editor-in-chief Mark Jones about your proposal by the end of today. While it will ultimately be his decision whether to move forward with your proposed topic, I'll be sure that your proposal is brought to his attention. If he does choose to approve it, I'll notify you promptly, and we can work out any additional details from there.

I'll be in touch as soon as I hear back from Dr. Jones; if you have any questions or concerns in the meantime, please let me know!

Best,  
Chris

Dear Christopher,

Thank you for your response. I think there is a minor mistake in communication. I am interested to contribute a bibliography on various aspects of corruption (in general), as I am currently doing research on the topic.

If that suits with your agenda, then kindly allow me a reasonable time to complete the assignment.

You may have an idea on my research interests on the brief CV in my institutional website below.

Many thanks to both you and Kathleen

Dear Sujay,

Thanks for clarifying! I'd certainly be happy to submit a proposal for an article on political corruption to Dr. Jones. We've previously commissioned three articles related to the topic: "Conceptualizing and Measuring Corruption in Politics", "Governmental Responses to Political Corruption", and "Corruption in China".

Just so you're aware: since political corruption is a fairly broad topic, he may request that you narrow the focus of your proposed topic to something a bit more specific. If he does, did you have a more specific topic in mind?

While browsing your faculty profile, I noticed that you have a background in Indian politics. With that in mind, would you potentially consider authoring a bibliography on "Corruption in India"? That would likely dovetail nicely with our previously published article "Corruption in China".

Please let me know how all of that sounds to you! Like I said: I'd be delighted to bring you aboard as long as Dr. Jones approves your proposal.

Best,

Chris

Dear Sujay,

Thank you for your patience! I'm happy to announce that I've spoken to the editor regarding your proposal—and after some consideration, he's approved it!

I've gone ahead and created a new entry for "Corruption in India" on the submission site. Now it's alright, I'll go ahead and put you down as the assigned contributor for that topic, with an initial submission due date tentatively set for October 15th. But if you find that date unfeasible, please let me know, and I'd be more than happy to adjust it.

You should be receiving a confirmation message shortly with more information, including a complete set of guidelines for OBO contributors. You should also be receiving an author contract within the next couple of weeks.

I'm excited to see how the article comes together! If you have any questions or concerns, please let me know!

Sl. No.	Activities	Status/Remarks
1	Project staffs	Appointed
2	Deployment and maintenance of Wave Rider Buoy (WRB) off Digha	On 05-02-2023 at 14:00 hrs, VU in support of INCOIS deployed the WRB @ ~ 15 m depth in the following location: 21°22.159 N 87°37.263 E
3	Beach profiles and Littoral Environmental Observations and modelling of shoreline dynamics	Literature review, ground survey, R&D using RS & GIS and numerical modelling is in process. Purchase of Auto level is also under process.
4	Collection of georeferenced Hilsa catch data and associated bio-geochemical parameters	Georeferenced fish catch data is in process, however collection of bio-geochemical parameters is on hold as CTD with bio-geochemical sensors and UV Spectrophotometer are in the process of servicing at INCOIS. Further, VU has opted an alternate process of analysing water quality parameters using UV Spectrophotometer in support with partner's laboratory.
5	Characterization of existing Hilsa /PFZ advisories using machine learning techniques	Under process using Multi model (GAM/ Decision Tree/ ANN) approach
6	Field measurements for primary productivity modelling	Presently not pursuing as not committed in the project proposal, however if INCOIS is advising to undergo such experiment, VU will be happy to implement the programme off West Bengal coast.
7	Information collection from stakeholders through the INCOIS feedback app	Manual georeferenced fish catch data collected; however, VU is sensitising few fisher folks to update data in the app.
8	User interaction meetings and outreach activity	On 3 <sup>rd</sup> , 04 <sup>th</sup> and 05 <sup>th</sup> Feb, nearly about 150 fisher folks are sensitized on WRB and other INCOIS activities, however, nearly about 40 fishermen were sensitized on the benefits of WRB during deployment in the presence of INCOIS scientist.
